

Prof Cynthia J. Jameson

Professor Emerita of Chemistry and Chemical Engineering, [University of Illinois-Chicago](#), USA.

Cynthia J. Jameson Professor Emerita of Chemistry and Chemical Engineering at University of Illinois-Chicago. She has contributed significantly to a fundamental understanding of the NMR chemical shift as a molecular electronic property. She has been a visiting scientist in Oxford and Cambridge Universities in the UK, and has been active in UIC's Women in Science and Engineering System Transformation program as a Facilitator since 2003.

Professor Jameson spoke about **supporting academic women in STEM** and the workshop that she designed known as **The Post-Doc Institute for preparing women for an academic career** at the Gender Summit 3 North America 2013 (GS3NA).
